## LIFE SKILLS THROUGH SPORTS

Playball is a sports and movement program developed over 25 years ago by Sports Psychologists and Occupational Therapists for children from the age of 2. Today, Playball is taught in numerous countries throughout the world.

In Playball, children learn the basis for such sports as baseball, basketball, hockey, tennis, soccer and more. Each level of the program is based upon the skills and confidence that the children acquired in the previous level. We use a loving, highly creative medium to teach necessary skills, educate, and play imaginative games.

### All Playball sessions are:

- **Non-competitive**
- **Structured**
- **Fun**
- **High Energy**

### The Playball Program:

- **Develops Confidence**
- **Creates Self Esteem**
- **Encourages Responsibility**
- **Teaches Leadership**

The main objective of Playball is to provide children with the opportunity to develop a host of necessary social, educational and personal skills.

In Playball we use the medium of sports to not only improve fine and gross motor development, but also teach basic life skills. At Playball, your child will learn persistence, courage, cooperation, respect, positive relationships, self worth, communication, responsibility and countless other attributes.

**We believe that through the medium of sport, the skills that are developed will help children deal with the challenges and obstacles of everyday life.**

**P**ositive reinforcement  
**L**ife skills through sports  
**A**ctive minds  
**Y**ears of success  
**B**asic sports  
**A**mazing program
